

Words from Mel Togolo PNG Country Manager

NAUTILUS
Minerals

Welcome to my August edition of the Nautilus Minerals Update for 2015.

What a busy few weeks the team and I have had. We were in New Ireland attending opening ceremonies for our water and sanitation program, making book donations to schools in New Ireland, commencing our education program and furthering the bridge building program.

Early this week we launched our new Corporate and CARES websites. Both sites have been modernised to make it easier for stakeholder to access up to date relevant information. The Corporate site focuses on the Solwara 1 Project and our exploration pipeline while the CARES site highlights our Community, Environment and Safety programs. I encourage you to check them out:

At a press conference in Port Moresby on August 14, Nautilus Minerals was named a Silver sponsor of the Pacific Tuna Forum which will be held in Nadi, Fiji in September. The forum is a great opportunity for government and key stakeholders to discuss this important industry across the pacific. Our sponsorship of such an exciting Forum illustrates Nautilus' commitment to working closely with the National Fisheries Authority.

Nautilus was the lead sponsor of the PNG Hunters versus Ipswich Jets Queensland Cup game on August 8, which the Hunters won convincingly. The Nautilus Minerals PNG Appreciation Day was attended by over 3,000 people, who celebrated a great win by the Hunters. Nautilus dedicated the cup after the late Lawrence Acanufa, a former employee of Nautilus Minerals and well known Papua New Guinean. Nautilus looks forward to sponsoring and promoting similar initiatives alongside the State of PNG in the future.

Myself alongside two PNG Ministers, local Politicians and other sponsors

Myself and Lawrence Acanuda Jr presenting the trophy to the winning captain

Over the past two weeks we have been advertising to fill a new vacancy in our Port Moresby Office. We are seeking a Media and Community Relations Advisor who will be responsible for the management and delivery of the Company's Media and Public Relations program in PNG. We are looking for an experienced, self starter who can work both individually and as part of a team. If this is the role for you, please submit your application on the Careers page of our website.

Nautilus has been working with the PNG National Library to improve reference materials and library books in selected schools in New Ireland Province. CEO, Mike Johnston, recently presented two schools with books and materials worth 11,000 kina. These donations are only the start of our education program. We are currently working with the New Ireland Provincial Government to develop a plan to assist them in improving the schooling of children along the west coast.

Over the next month, the team will continue to work on the ground in New Ireland with the Provincial Government, LLGs and wards in the areas of health, education and infrastructure. We have multiple workshops planned for September, so look out for updates in my next blog.

Regards
Mel Togolo

About Nautilus Minerals Inc.

Nautilus is the first company to explore the ocean floor for polymetallic seafloor massive sulphide deposits and is developing its first project at Solwara 1, in the territorial waters of Papua New Guinea, where it is aiming to produce copper and gold. The company has been granted all necessary environmental and mining permits. For more information send a note to: PO Box 1161, Port Moresby, NCD or visit our websites: www.nautilusminerals.com / www.cares.nautilusminerals.com
